That is still the goal – my management would like to send responses back to OMB early next week. I've tried to highlight comments that I need your guys' expertise responding to. Of course, please let me know if any of the comments need discussion with the larger group, or if you need more time to respond.

Hi Chris

Is COB Thursday still the goal? I think we can make it work, but it will be tough, and maybe some discussion would be good tomorrow too.

If the timing has shifted at all, it would be good to know. Thanks

Alex

Subject: new round of comments from OMB on U&O FIP

Everyone,

We just posted the latest (and hopefully final) OMB comments on the RIA to sharepoint:

https://usepa.sharepoint.com/sites/R8_Work/tribalFIPs/UOUintaBasinFIP/Background%20Documents/Forms/A

There are two documents; one that includes general comments, and another with specific comments on the RIA. Given our tight timeframe, our goal is to send responses to comments back to OMB early next week. Please take a look at both documents, and add responses to comments where you can – annotated directly to the comment. Please complete your additions by **COB this Thursday the 17th**. My assumption is most comments can be addressed with either 1) a brief response, 2) repeating text from our responses to earlier sets of comments, 3) simply saying we disagree, for this reason..., or 4) we will request comment on... However, please let me know if you see a comment where you think additional analysis or discussion is required.

After we draft responses to all the comments, I will circulate to the larger EPA workgroup and OGC for review.

And as always, thanks for your help.

-Chris
